Dear Prof Voronov,

I saw from the website that you are the Chair Person for the "Meet the Faculty & Postdoc Candidates Poster" AIChE 2022. The National University of Singapore (NUS), Department of Chemical and Biomolecular Engineering has several tenure-track faculty openings. I would like to reach out to the presenters of the session but do not have the mailing list. Will you be able to share the attached job advertisement to presenters of the Faculty & Postdoc Candidates Poster? I have also attached an e-invitation for our reception on 15 Nov for sharing. If you are not the right person to help with the circulation, please let me know.

A brief intro of NUS:

NUS founded in 1905 is Singapore's flagship university. NUS is the leading global university centred in Asia and emerged as Top 20 in the latest Times Higher Education World University Rankings. We aspire to be a vital community of academics, researchers, staff, students, and alumni working together in a spirit of innovation and enterprise for a better world. Impacting the world is central to everything we do at NUS. Our inaugural impact report <https://www.nus.edu.sg/impactreport>, which provides insight into our accomplishments from 2016 to 2020, seeks to measure and articulate the value we bring to the nation and society. It also serves as a means to appraise our priorities and capabilities, ensuring that we remain aligned with our goals in our continuous quest for excellence.

As we face the challenges ahead, we aspire to create a better world for all; and strive to impact the future in three seminal ways – nurturing talent, creating solutions, and advancing society.

For more information, visit <https://www.nus.edu.sg/about> and <https://cde.nus.edu.sg/chbe/about-us/careers-chbe/>.

Thank you in advance.

Regards,

Violet
